- Lightly shaded cells do not require rescoring.
- All Version 1.2 criteria include the addition of Formatting edits to number each reference with a superscript number. This number corresponds with the reference's information that is included in the new Resources section.
- Modifications to criteria in the SPS and SPR modules are described assuming that Version 1.1 SP criteria are the original document (with renumbering incorporated such that SP = SPS or SP = SPR respectively).
- Criterion name modified.
